Get Started

What is Procuman?

A hosted open-source e-procurement and e-sourcing platform that automates the entire **procure-to-pay** cycle, bridging **requisitioners**, purchasing agents, and suppliers.

↔ Evolution: Manual vs. Digital Procurement

Manual Requisitions & Paper

Automated Digital Workflows

Email & Spreadsheet Tracking

Real-Time Visibility & Dashboards

Siloed Supplier Data

Centralized Supplier Portal

Solving Key Challenges

Slow Approval Cycles

Replace lost emails and manual signatures with automated routing and instant notifications.

Lack of Visibility

Track every purchase order status in real-time from request to payment receipt.

Maverick Spend

Enforce budget controls and policy compliance automatically before purchases happen.

E-PROCUREMENT FEATURES

Complete procure-to-pay automation to streamline purchasing operations.

Purchase Requisitions

Create requests and route them through configurable multi-level approval chains.

Approval Workflow

Automate approvals with email notifications and delegation rules.

Purchase Orders

Auto-generate POs from approved requisitions and email directly to suppliers.

Goods Receipts

Record receipts and compare against PO line items for 3-way matching.

Invoice Matching

Verify supplier invoices against POs and receipts to prevent overpayments.

Budget Validation

Check funds availability in real-time during the requisition phase.

Analytics & Reporting

Monitor spend, track cycle times, and generate custom reports.

E-SOURCING & SUPPLIER MANAGEMENT

Comprehensive tools for supplier collaboration and tender management

Supplier Portal

Collaboration & Access

- ✓ **Self-Registration**
Suppliers can apply and onboard directly through the portal.
- ✓ **Document Sharing**
Secure exchange of certificates, contracts, and compliance docs.
- ✓ **Question & Answer**
Direct communication channel for tender clarifications.
- ✓ **Invoice Submission**
Suppliers submit invoices directly linked to POs.

E-Tendering

RFQ & Bidding

- ✓ **RFQ Creation**
Create and send requests for quotes to selected suppliers.
- ✓ **Online Bidding**
Suppliers submit bids online with deadline enforcement.
- ✓ **Bid Comparison**
Side-by-side comparison of supplier offers and terms.
- ✓ **Winner Selection**
Evaluate and select winning bids based on criteria.

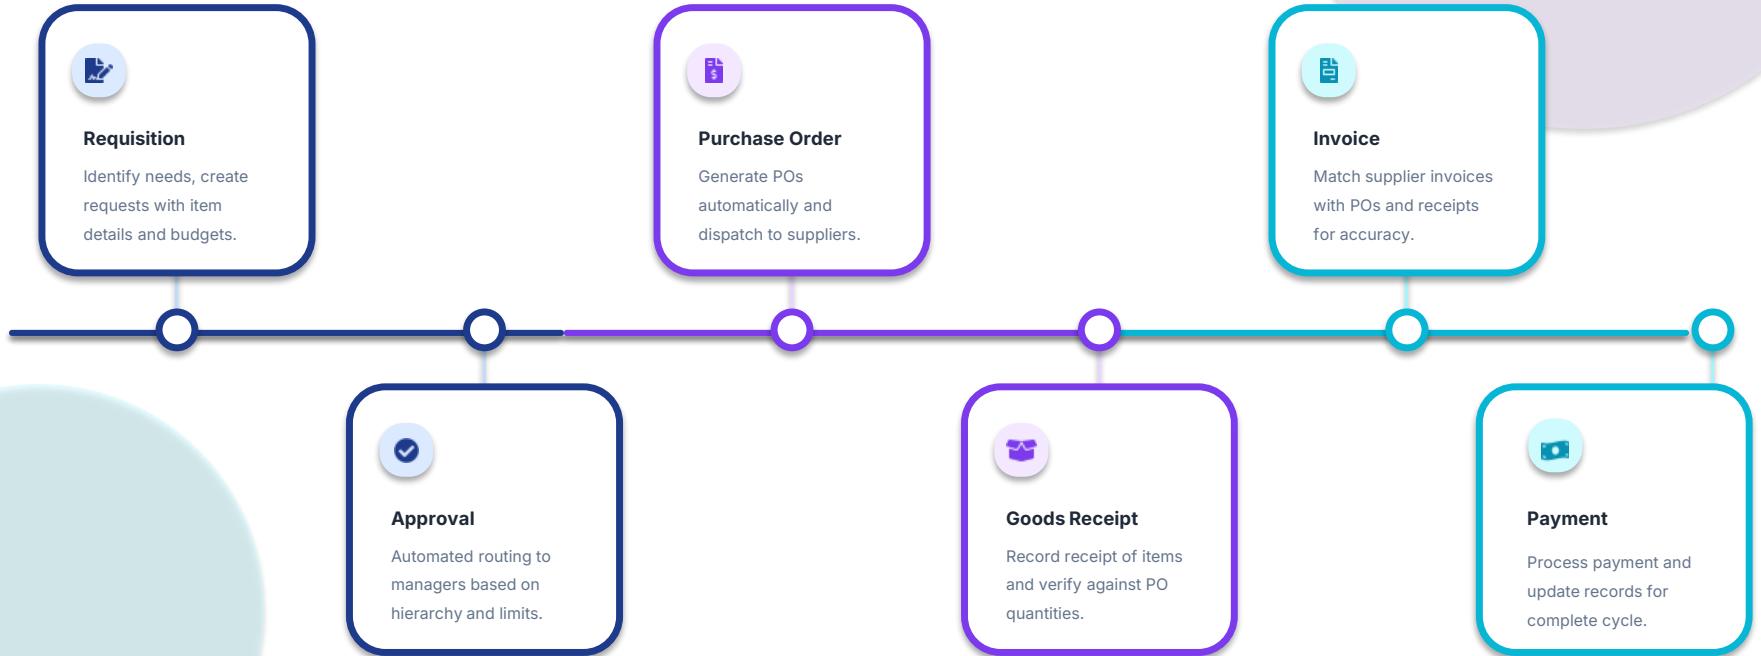

AI Assistance

Smart Evaluation

- ✓ **Contract Analysis**
AI reviews contract terms and highlights risks.
- ✓ **Bid Evaluation**
Automated scoring and ranking of supplier proposals.
- ✓ **Supplier Matching**
Suggest best-fit suppliers based on category needs.
- ✓ **Compliance Check**
Verify supplier documents against policy rules.

THE PROCURE-TO-PAY LIFECYCLE

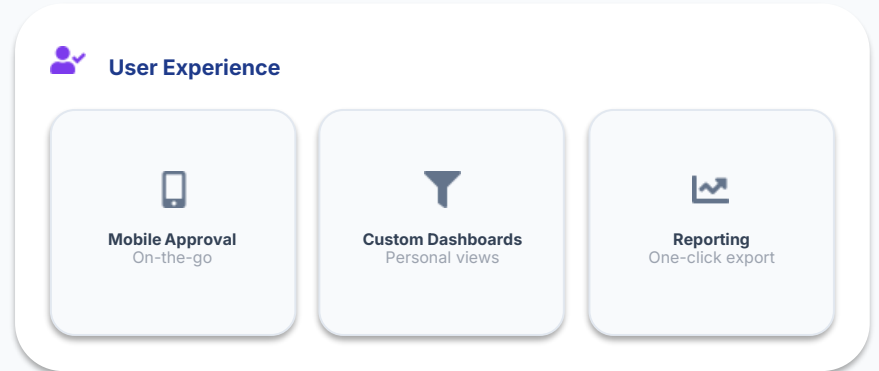

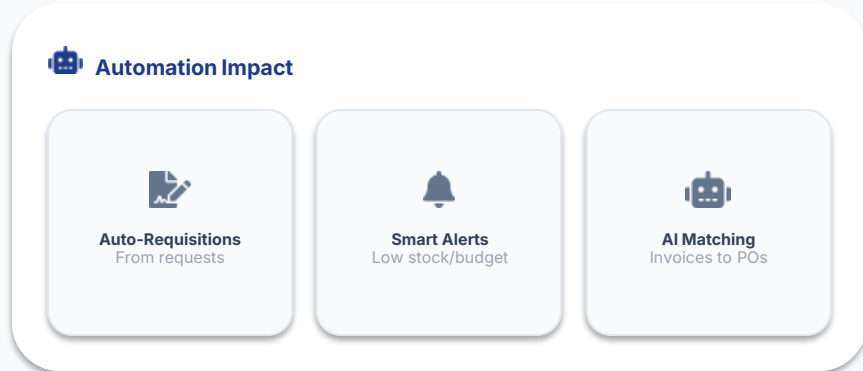

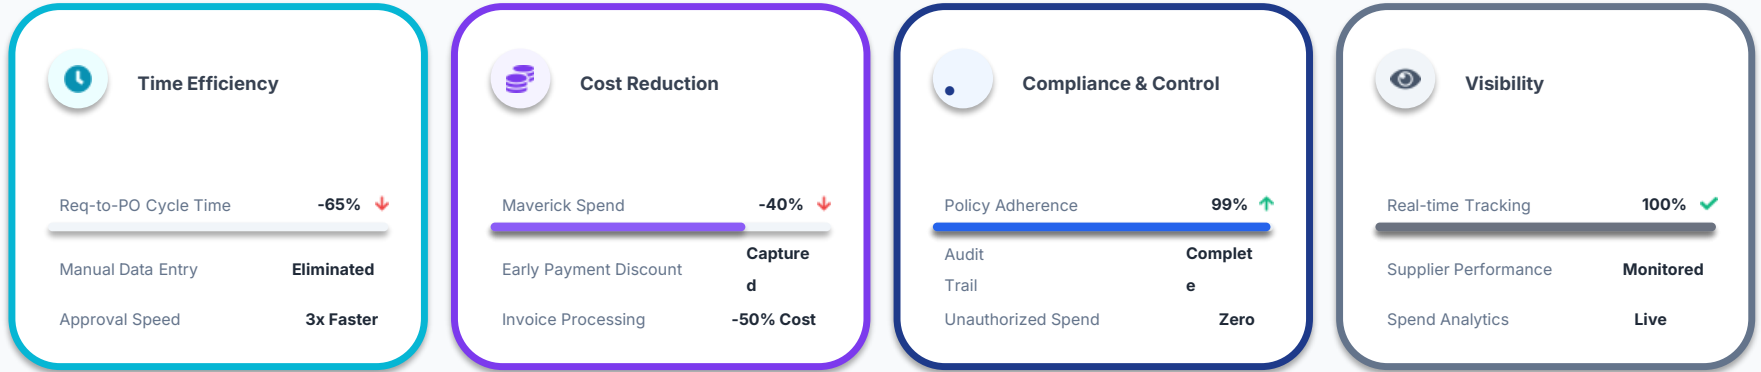

A seamless journey from need identification to payment settlement.

BENEFITS FOR PURCHASING AGENTS

Measurable impact on daily efficiency, cost control, and process compliance.

KPI DASHBOARD

COMPLIANCE & APPROVAL WORKFLOW

A robust framework ensuring policy adherence, transparency, and control in every transaction.

Policy Enforcement

- ✓ Automated rule checks
- ✓ Budget limit validation
- ✓ Vendor compliance flags
- ✓ Restricted items control

Role-Based Access

- ✓ Hierarchical permissions
- ✓ Approval limit delegation
- ✓ Department segregation
- ✓ Secure login (SSO/LDAP)

Audit Trails

- ✓ Complete action history
- ✓ Timestamped approvals
- ✓ Change logs tracking
- ✓ Report generation

Approval Automation

- ✓ Multi-level workflows
- ✓ Conditional routing logic
- ✓ Real-time notifications
- ✓ Mobile approval support

Deployment & Integration

Flexible hosting options and seamless integration capabilities for your procurement ecosystem.

Streamlining Sourcing

Transforming manual supplier discovery into an automated, data-driven process.

The Problem

Manual sourcing is slow, lacks visibility, and limits supplier competition.

 **Long cycle times**

 **Limited market reach**

Data Context

 Supplier Portal

 e-Tendering

 Evaluation

The Approach

1. Open Tender

Publish RFQs to the Supplier Portal to invite bids from a wider network.

2. Online Bidding

Suppliers submit quotes digitally with real-time Q&A for clarification.

3. AI Evaluation

AI assists in comparing bids based on price, compliance, and risk criteria.

4. Contract Award

Select winner and generate e-signature contracts directly in the system.
